Industrial Climbers  
Maintenance Service Provider  
Online Training Academy  
Consulting

Building Excellence . Sharing Knowledge

## INDUSTRIAL CLIMBERS

Through our qualified and certified team, we can support industrial organizations to accomplish all working at height tasks including inspection, repair and welding activities.

## MAINTENANCE SERVICE PROVIDER

Our professional team can support your organization in handling maintenance, repair and replacement activities including shutdown major jobs.

## ONLINE TRAINING ACADEMY

We are excited with our new scope to share our experts practical knowledge and experience through our online academy which allow you and your organization to enjoy online professional courses with affordable prices.

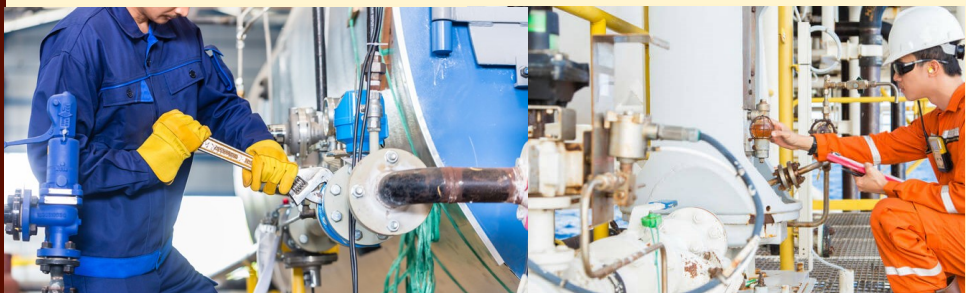

### USING ROPE ACCESS FOR YOUR WORK AT HEIGHT ACTIVITIES

The rope access technique is safe, fast, and cost-effective since it avoids the hassles of scaffolds including the time, money, and effort exerted accordingly. Now you can execute your activities regardless of the accessibility to the equipment or building.

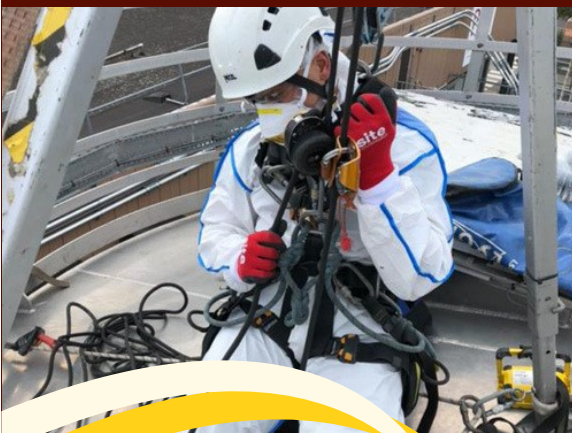

### WHERE TO USE INDUSTRIAL CLIMBERS ?

Our team is highly qualified in executing industrial tasks since they have experience in different fields and backgrounds and they are well trained and certified.

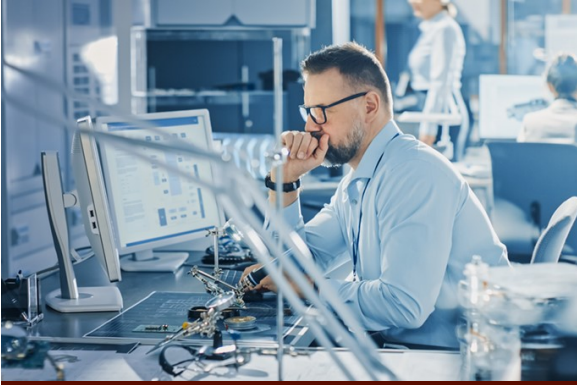

**OUR TEAM CAN SUPPORT ANY INDUSTRIAL ORGANIZATION IN THE FOLLOWING TASKS :**

- Silo Inspection and Cleaning.
- Welding Activities.
- Repair Tasks.
- Cyclone Inspection.
- Vortex Finder Inspection.
- Chimney Inspection and Repair.
- Ducts Inspection and Repair.
- Installation Activities Using Rope Access.
- ID Fan Inspection and Repair.
- Thickness Measurement.

## ONLINE TRAINING ACADEMY

LEARNING IS A LONG JOURNEY, AND ACQUIRING KNOWLEDGE SHOULD NEVER STOP.

Knowledge is available every where and nowadays it is extremely easy to access resources with a click at your fingertip. Online education becomes one of the main and reliable source of acquiring knowledge, this is why we decided in SKYMAINT to start our online academy to share the knowledge of experts in different fields and backgrounds.

It is always easy to access knowledgeable resources, yet our courses are more practical based, and not only academic ones. The course contents is built upon long experience and knowledge of our instructors.

As an engineer, manager or even fresh graduate, you can always find something valuable in our courses.

We are granting this opportunity to individual learner and to organizations in order to improve their employees competencies which should have a significant impact on the whole organization's performance.

## PRACTICAL CAPSULES ARE CHEAP

YOU CAN PURCHASE OUR ONLINE COURSES IN AFFORDABLE PRICES

### HOW TO PURCHASE OUR COURSES ?

You can easily check our website and choose the course you would like to take after reviewing the according curriculum and watching the promo video or the free units.

Once you decided to take the course you can easily pay and start the course with a simple click.

You also have the right to rate the course and to add your comments which we will be happy with since we are always seek improvement and to satisfy our students with the optimum product.

After course completion you can get a course completion certificate.

For organizations, you can get an access to our courses through a monthly and annual membership where you can add your employees to take whatever courses they prefer with special deals.

We should conduct an online Q&A session to follow up with our students and to check their progress in applying what they had learned in our courses.
